Education

SGT UNIVERSITY

Gurugram, India

Bachelor of Technology (Btech)

- Computer Science and Engineering

CAREER OBJECTIVE

Eager and dedicated recent graduate with a degree in Computer Science, seeking an entry-level position as a Full Stack Developer. Leveraging strong skills in JavaScript, HTML, CSS, and back-end technologies, I am eager to contribute to dynamic projects, collaborate with cross-functional teams, and further develop my proficiency in full-stack development

Technical Skills

- Proficient in programming languages such as **Java and JavaScript**.
- Skilled in **Full-Stack Development** using the **React Framework** for building dynamic and responsive web applications. Proficient in back-end technologies, such as Node.js and Express.js, with hands-on experience in RESTAPI.
- Experienced in using version-control systems, specifically **Git and GitHub**, for managing and tracking code changes and collaborating with cross-functional teams.
- Familiarity with database management systems, specifically in **MongoDB**, for designing and implementing efficient data storage solutions and managing data across applications.
- Strong understanding of computer fundamentals, including **Data Structures and Algorithms and Object-Oriented Programming**.
- Excellent **communication and collaboration skills**, with the ability to work well in a team environment.

Projects and Developments

. REAL-TIME TASK MANAGEMENT APPLICATION

- Developed a dynamic task management application using Node.js and Sequelize for back-end operations.
- Implemented real-time updates and notifications for task status changes.
- Utilized React.js for the front-end development to create a responsive user interface.

PORTFOLIO WEBSITE

- Designed and developed a personal portfolio website using REACT, HTML, CSS and JavaScript.
- Showcased projects, skills, and contact information.
- Ensured mobile responsiveness for optimal user experience.
- <https://amit-k-portfolio.netlify.app/>

E-COMMERCE PLATFORM

- Developed a responsive e-commerce website using React for the front end and Node.js for the back end.
- Implemented user authentication and authorization .
- Utilized React Hooks and functional components to create reusable UI Components and integrated third-party libraries such as React Router for client-side routing and HTTP requests.

DYNAMIC WEB APPLICATION

- Developed a dynamic web application using React, showcasing proficiency in JavaScript, HTML5, and CSS3
- Implemented complex RESTful APIs using Express.js for seamless data integration

API Integration Project

- Successfully integrated REST APIs into JavaScript code, demonstrating a deep understanding of API integration and usage.
- Applied advanced database queries to enhance data retrieval efficiency

Skills Highlights

- Hands-on experience in developing JavaScript code from scratch.
- In-depth knowledge of React and proficiency in front-end technologies (HTML5, CSS3).
- Developed and maintained complex RESTful APIs using Express.js.
- Demonstrated expertise in integrating various APIs into JavaScript applications
- Proficient in writing advanced database queries and working with nested JSON queries.
- Familiarity with cloud-based managed services and their integration at scale.
